APRIL 2013

2013 NFMS Mid-Year Meeting Kenniwick, WA **April 20, 2013**

The 2013 NFMS Mid Year Meeting will be held in Kennewick Washington in Building #16 at the Benton County Fairgrounds, 1500 S. Oak Street This is the same location as the past seven years and coincides with the Lakeside Gem and Mineral Club Annual Gem and Mineral Show which is held at the same location.

On Saturday April 20 the mid-year meeting will begin at 10 AM, with registration starting at 9:30 AM. RV camping is available at the Fairgrounds with electricity and water available for \$10/night. If you plan to use these facilities please send an email to Larry Hulstrom at larryhulstrom@live.com prior to April 1 indicating date of arrival and duration of stay so an accurate count can be kept and space can be planned. Payment will be collected upon arrival at the Fairgrounds. There are a number of motels throughout the immediate area in Kennewick. See last month's newsletter for full information.

The ALAA has a meeting place arranged at Kennewick Saturday, April 20 immediately following the NFMS meeting. There will be a "Round Table Discussion" regarding what is going on concerning public lands within the boundaries of the NFMS.

THINGS YOU SHOULD KNOW

The AMERICAN LANDS ACCESS ASSOCIATION

(ALAA) is a 501(c)(4) organization. Its purpose is to promote and ensure the right of amateur hobby fossil and mineral collecting, recreational prospecting and mining, and the use of public and private lands for educational and recreational purposes; and to carry the voice of all amateur collectors and hobbyists to our elected officials, government regulators and public lands managers. Your annual individual membership fee of \$25.00 helps support their activities. Club membership is \$50 per year. Send dues to: ALAA, Ruth Bailey, 2857 Addison Pl, Santa Clara, CA 95051-1705 For more information contact: Shirley Leeson, ALAA Vice President, P.O. Box 23, Tendoy, ID, 83468, shirleyleeson@cox.net or beauholland@centurytel.net

The AFMS NEWSLETTER is published monthly except Jan-Jul-Aug by the American Federation of Mineralogical Societies. Each NFMS member <u>club</u> should have three people (usually the Pres, Secretary, and Editor) receiving the AFMS Newsletter. If they are not, or if anyone else wants to subscribe (\$4.50 per year). Contact:: AFMS Central Off., Steve Weinberger, P.O. Box 302, Glyndon, MD 21071-0302 cebar62@aim.com Make checks payable to "AFMS".

The NORTHWEST NEWSLETTER is the official publication of the Northwest Federation of Mineralogical Societies (NFMS) and is usually published ten (10) times per year. This publication is brought to you through your club membership in NFMS. The purpose of the Northwest Newsletter is to keep all NFMS members informed of activities and events pertaining to

the business and services of the Federation. The Newsletter is printed and mailed to approximately 3500 homes in six states by Burley Reminder in Burley ID. For matters related to the Newsletter (i.e. content, advertising, etc) contact the **Newsletter Editor**. For matters related to the Newsletter circulation (new members, address changes, etc.) contact Circulation.

SHOW COORDINATION. Your Federation provides a free service for NFMS members by listing your show in this Newsletter, on the NFMS website, two magazines ("Rocks and Minerals" and "Rock and Gem") and the on-line Calendar from "Lapidary Journal". Please provide the date and time for the show, the club name and show title (if applicable), the location of the show, and most important a contact person with address, e-mail address and/or phone (e-mail is preferred). Please send your show information four to six months in advance to the Show Coordination Chairperson. If you see an error once your show is listed, or if your show is not listed, contact the Newsletter Editor.

SAVE STAMPS PROGRAM. NFMS members are encouraged to use and save commemorative stamps. The money generated from the sale of these used (cancelled) stamps is then donated to Cancer Research. The collected stamps can be sent to the **Stamps Chairman**, brought to the NFMS Annual Show or given to your Federation Director in your club.

ATTENTION CLUB TREASURERS

Where to send your money

To NFMS Treasurer for:

- 1. Dues and supplies
- 2. Donations for the general fund
- 3. Donations to Junior Achievement
- 4. Advertisement in this Newsletter

Send to: Lyle Vogelpohl, see Treasurer this page.

- <u>To NFMS Endowment Fund Treasurer</u> for:
 - 1. Donations to Endowment Fund
 - 2. Memorial contributions

Make check payable to NFMS Endowment Fund, send to Endowment Fund Treasurer.

- To NFMS Scholarship Chairperson for:
 1. Donations to AFMS Scholarship Fund
- 2. Memorial contributions to AFMS Scholarship Make check payable to AFMS Scholarship Fund.

Send to: Rose Alene Mc Arthur (see Scholarship this page).

To AFMS Endowment Fund for:

- 1. Donations to AFMS Endowment
- 2. Memorials

Send to: See AFMS Newsletter

To ALAA Treasurer for:

- Memberships, new and renewals 1.
- 2. Donations

Make check payable to ALAA

Send to Joyce Hanschu, ALAA Treasurer, 6607 Sturbridge Ln; Canton, MI 48187-2638

NFMS NEWSLETTER AND WEBSITE **ADVERTISEMENT**

Members, Non-members, clubs, etc. can advertise in the Northwest Newsletter. This service is provided to help defray the cost of printing and mailing the newsletter and is encouraged by the Federation. The only criteria for the ad is that it be hobby related (e.g. rocks, equipment, grit, shows, etc.).

Ads for the Northwest Newsletter are \$1.50 per square inch. Example: 3" x 4" ad = 12 inches

12 inches x \$1.50 = \$18 per issue of the Newsletter For an additional 50% of the cost of the Newsletter ad, you can have the same ad placed on the NFMS website for the same length of time. The Newsletter ad must be purchased to receive this additional advertisement.

Do not send ads on colored paper because the back-ground will look gray in the ad. The Editor will send a billing statement to the customer which will include instructions to make payment to the NFMS Treasurer. For more information or questions, call, e-mail or write the Newsletter Editor

To see this newsletter in living color and to see it by the first of the month go to

http://www.amfed.org/nfms/newsletters.asp and click on the month you want to see.

COMMITTEE REPORTS

President's Message By Kathy Moedl

Well, the weather is warming up slowly.

The piles of snow have melted. The crocus and daffodils are starting to poke their noses up out of the ground. Unfortunately, I tell the little flowers to go back! It's a trap! We will still have a hard spring before the snow stays away. I was in California in March and had a chance to do some rock hounding. We picked up some nice chalcedony and we were able to enjoy the warmer weather and firmer soil. It was good to finally be able to get out and enjoy the search for rocks.

I need to apologize for my typo error last month when I referred to the Lakeside Gem and Mineral Club as the Lakeview club. I had purchased a new computer with all new programs that I wasn't familiar with and erased my article before I could save it. In the retyping I made the error. If I make any typo errors this time I can blame it on my broken wrist and trying to type with a cast on my left arm. While I have never had an accident doing all my outside sports and activities (skiing, climbing, rock hounding etc.) I have had two accidents in the last four months, both of which involved walking. I am beginning to think that walking isn't a safe activity!

Speaking of the Mid Year meeting....

The NFMS is doing a great job and is a great organization compiled of volunteers making up the officers, committees, delegates and advisors. Thanks to all of you who volunteer your time and energies to making the NFMS such a success. Volunteers needed! We do have some committees that are in needs of new volunteers for Supplies and for Bulletin Aids. Please look at yourself and say, "I can do that!" and step forward. See you in Kennewick!

Doctor's Advice... By Chuck Sonner, Safety Chair

Tom was not feeling well. He was short of breath and tired all the time. Gloria, his wife, told him to call Doctor Stone. Ben Stone was his doctor, friend and fellow club member. Tom and Ben belong to the same rock club. Doctor Stone made time for Tom the following day. At the doctor's office, Tom gave Ben a full rundown on all the problems he was having. The Doctor listened and took notes. He told Tom that the nurse would take a blood sample and after the results came back, would give him a call.

The call came in a few days later. Dr. Stone said not to worry. He would stop by Saturday and give him the results. To Tom and Gloria, Saturday was a long way off. Ben arrived around 10 am and asked if they would all go out to Tom's rock room in the garage. What he said next surprised both Tom and Gloria. Ben told Tom that their hobby was the problem. "You know I am over here all the time getting advice on how you do things. What I did not see was in plain sight." Dr. Stone

told Tom he had a mild case of heavy metal poisoning. "With time and some medication you will be back to your old self."

"The question is where did it come from?" said Dr. Stone. "I noticed dried leaves that are on your garage floor. That tells me the wind will blow back into the garage." He went on to explain that the high speed sanding that they both do puts dust into the air. "The dust mask we wear does not stop all the contaminates. How many times do we have to clean our glasses?" He went on to discuss the solder he was using. "I know you got it from an old club member. Do you know what is in the solder? Remember, when we were kids, we coated silver dimes with mercury. Would you let your grandchildren play with liquid Mercury?"

Ben pulled a copy of *The Complete Metalsmith* by Tim McCreight off the shelf. He had several pages devoted to safety information. Also, notes through out on do's and don'ts." Ben Stone spent several minutes going over what he saw as problem areas. "I am making the same mistakes as you. We need to rethink what we are doing." As he was leaving, Ben said "You will be fine in a few weeks if you, or should I say we, change a few bad habits."

The above story is just that, "A STORY". The story form is used to give examples of what we are doing. The hope is to learn from our mistakes

From the Editor's Rockpile By Beth Heesacker

Why come to the NFMS meetings? Well, there are lots of reasons. The first is to find out what is going on in the wider world of rockhounding. In our individual clubs we are like fish that swim around in a circle doing the same things and seeing the same people over and over again. Don't get me wrong, that is not a bad thing. We are drawn into strong friendships and each have our favorite places to go to gather the wonderful treasures God has provided for us.

But sometimes like the fish in the iddy - biddy pool (the young folks might need to have you sing this song to them to understand the reference) we need to try a different place to swim. To get out and meet other rockhounds, to find out what is happening in other parts of our Federation and to see some new lapidary materials can all broaden our outlooks and be deeply rewarding. I know that to meet with the people that I interface with in the Federation is

usually a great joy. To see the hard work others put into their jobs within the Federation makes me glad that my local club is a member. It enriches the hobby for me. And of course, there is the rock. To go to another show some distance from my local one always rewards me with rock with new patterns, new tools, new books, a new appreciation of some form of my hobby that I have not seen before in my local area.

I invite all of you to make the commitment to occasionally attend an NFMS meeting and the accompanying show. Kennewick Washington is not that far to travel. Come "swim over the dam" and join us as we meet and discuss the issues facing us as rockhounds and have some fun too.

CLEAN-UP OPPORTUNITY!

ARE YOU WILLING TO DO A BLM/FORESTRY CLEAN-UP AS PART OF YOUR FIELD TRIPS ON PUBLIC LANDS?

By Shirley Leeson, ALAA Vice President

ALAA is asking you to get involved. When you go out on a field trip on public lands, contact the BLM and/or Forestry or State Lands, and **offer to do a clean-up under their direction.** This is key. They will work with you on a location near your campsite, they will have someone on the day of the clean-up there to supervise and have trucks to haul away the trash, etc. TAKE PICTURES of the event. (They will most likely take pictures too)

If you are willing to participate, contact me and I'll send you some ALAA TRASH BAGS – they have our logo and the words "TRASH, Pack more out than In."

Have them in the front of the picture. The BLM, etc will give you plastic trash bags for the rest of the refuse and trash.

Send pictures with the club name, city and state, and the location of the clean-up and the government body who supervised the event to: info@amlands.org and we'll see they are put up on the website and also do a write up in the ALAA Newsletter. And I suggest you also send a picture and article to your regional Newsletter editor for recognition there too.

Let's get rockhounds recognized once again. It will help us when we ask the government to keep our public lands open for all of us.

NOTE: Sending ALAA trash bags will take time, PLAN AHEAD.

Pictures from the 2013 BLM Quartzsite Cleanup where 3 tons of trash were picked up

Ore-Rock-On On DVD Version 5.2

Oregon, Washington, and Idaho Rock Dig Locations DVD for PC & MAC

- . A comprehensive guide for digging lapidary, mineral, and fossil materials
- Includes ALL rockhounding sites in the NEW editions of Gem Trails of Washington & Oregon and Rockhounding Idaho
- . 991 USGS topo map & overview map images with digs clearly marked
- . A relief map of each state points you to maps or detailed info & photos
- . Waypoint files to upload to your GPS Over 2,100 Waypoints!
- . 36 detailed descriptions of dig sites that have GOOD material!

\$41.50; Send Money Order only to Tim Fisher, 18403 S Clear Acres Drive, Oregon City OR 97045, for credit cards see http://OreRockOn.com/CD.htm

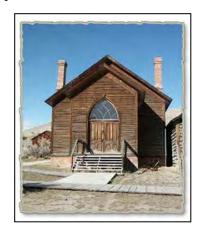

NFMS ANNUAL MEETING, AUGUST 9-10, 2013 (cont.)

Butte Driving Tours

By Dick Wendel Butte Federation Show Publicity Chair

Bannack State Park Take I15 South from Butte to near Dillion, then 278 West to the turnoff for the park. Bannack was founded in 1862 when John White discovered gold on Grasshopper Creek. As news of the gold strike spread many prospectors and businessmen rushed to Bannack hoping to strike it rich. In 1864, Bannack was named as the first Territorial Capital of Montana. After being in Bannack a short time, the Capital moved on to Virginia City. In 1863 gold had been discovered near Virginia City and man prospectors left in hopes of finding the mother lode in Virginia City's Alder Cr.

From the late 1860's to the 1930's, Bannack continued as a mining town with a fluctuating population. By the 1950's gold workings had dwindled and most folks had moved on. At that point

workings had dwindled and most folks had moved on. At that point the State of Montana declared Bannack a State Park. Today, Bannack is the best preserved of all Montana ghost towns with over sixty structures remain standing, most of which can be explored. Note: Bannack is a short drive South East from Crystal Park.

If you keep driving west on hwy 278 and continue west on hwy 43 at Wisdom and the Big Hole Valley [is known for its Beaver Slide method of stacking hay] for about 10 miles you'll arrive at the **Big Hole National Battlefield**. The Battle of the Big Hole in August of 1877 was the turning point of the Nez Perce War, a five month war during which the U.S. Army tried to force the tribe on a reservation. Guided Ranger talks are available as are self guided walks.

Continuing back to Wisdom and staying on hwy 43 you'll be in the

Calvert Tungsten Mine collecting area. Next take the hwy 569 turnoff and head north up the Scenic Highway past the Stack State Park near Anaconda and on to Butte

For another historic trip head west to: Anaconda, MT

<u>Anaconda</u> was founded by Marcus_Daly, one of the Copper Kings, who financed the construction of a smelter on nearby Warm

Springs Creek to process copper ore from the Butte mines. In June 1883, Daly filed for a town plat for "Copperopolis," but that name already graced a mining town in Meagher_County. Instead, Daly accepted the name "Anaconda".

In 1903, the Socialist Party of America won its first victory west of the Mississippi when Anaconda elected a socialist mayor, treasurer, police judge, and three councilmen. Initially, the Anaconda Copper Mining Company tolerated them, but when the Socialists gained political power and threatened to implement reform, the company systematically undermined the radical party. City workers and councilmen refused to cooperate with the new mayor, and the company began to fire Socialists. In the long run labor los

refused to cooperate with the new mayor, and the company began to fire Socialists. In the long run labor lost ground in Anaconda and the company exerted ever greater political control. [1]

The Anaconda_Company expanded smelting capacity over time, and by 1919 the Washoe Reduction Works could boast that its 585-foot (178 m) smokestack (Anaconda_Smelter_Stack) was the tallest masonry structure in the world and that the smelter-refining complex constituted the world's largest nonferrous processing plan. In 1980, Atlantic Richfield Company closed the smelter, bringing an end to almost a century of mineral processing. Since then, an operation for environmental cleanup was put into place by the Environmental Protection Agency and executed with the assistance of ARCO. The multi-million dollar cleanup and investment has resulted in the formation of "Old Works" Golf Course, a championship 18-hole course designed by Jack Nicklaus

Continuing further west from Anaconda on hwy 1 you'll go past beautiful Georgetown Lake and arrive in Phillipsburg.

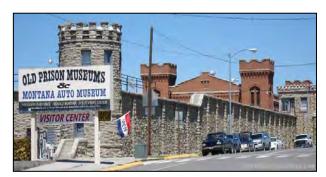

<u>Phillipsburg</u> voted as one of the "Prettiest Painted Places in America" its home to the oldest operating school, jail, and opera house in Montana. Long the county seat of Granite County, Philipsburg has a rich history in silver mining and ranching. The roots of the area started as a booming mining town in the late 1800's. Its historic downtown is full of beautifully restored buildings from that era. Today these buildings are full of friendly shops, saloons, and other enjoyable establishments. It is situated 30 miles south of I-90 on the famous Pintler Scenic Loop, also known as Montana Highway1.

Phillipsburg has claimed "sapphires from the greatest deposit in the world." Now in addition to finding your own sapphires and motoring around Georgetown Lake, add a live professional theatre in the oldest Opera House in Montana, historic shopping in the lovingly restored commercial business district, tasting and watching candy being made with antique equipment in the World's Greatest Candy Store, exploring local ghost towns, lunching and dining in the old eating establishments, and relaxing in the evenings in the renovated old hotels and saloons. Did you come to Montana to collect some Sapphires?

NFMS ANNUAL MEETING, AUGUST 9-10, 2013 (cont.)

A short drive up the Shalkaho Pass hwy [38] you'll find the <u>Gem Mountain Sapphire Mine</u> 22 miles west of Philipsburg at the south end of the Sapphire Mountain Range. They've been mining Sapphires at Gem Mountain since 1892. Gem Mt. is the only business in the area that owns and operates a Sapphire Mine one of the few left in the state of Montana. Gem Mt. produces it's our own sapphire gravel concentrate. Sapphire Mining is a lot easier today than it used to be. The dirt is dug up for you, washed, and concentrated and brought to the store by the dump truck load. The gravel is sold by the bucket. Gem Mt. supplies all the tools and equipment needed for you to find your own Montana Sapphires. Five gallon buckets of gravel are \$20 and should keep you entertained for a couple of hours.

A short 40 miles to the west of Butte you'll find the "Museum "town of Deer Lodge.

The second oldest town in Montana, <u>Deer Lodge</u> is a historically rich community. Deer Lodge was first discovered by Indians and then later during the Lewis and Clark expedition when the men were helped over the continental divide and through the neighboring Bitterroot Mountains by the Native Americans of the area. The landscape of the area is both prairie and mountainous.

In the 1850's Johnny Grant settled in the Deer Lodge Valley and established what was to become one of the largest ranching operations in the country. Today the Grant-Kohrs ranch is a National Historic Site and still a significant working ranch. It consists of 1,500 acres and has 90

structures. In early 1870's, Deer Lodge was selected as the site for the Montana Territorial Prison. It was built by convict labor, and opened its doors in 1871 where it remained in use until 1 1979. Guided and self-guided tours lead visitors beyond the gray stone wall and towers through the now unused prison with its 4-tiered cell block, gothic facade and huge prison yard. The 120 Montana Auto Museum is also part of the Prison tour. Powell County has a number of other museums of interest. It also has diverse industries, farming, ranching, mining, timber harvest, lumber and other wood product production and tourism.

Our last suggested tour is only a 90 minute drive south of Butte is the historic town of Virginia City/ Nevada City

<u>Virginia City</u> is a living town of 150 year round residents who host the West's best preserved gold mining town from the 1860s. Visitors walk the same boardwalks that desperate Vigilantes once patrolled. Guests are transported to a time when rowdy miners mingled in saloons and restaurants with women of negotiable affection.

<u>Nevada City</u>, just 1.5 miles away has 14 historic buildings original to the site plus a collection of more than 100 other historic buildings saved from locations all over Montana. The town provides a great backdrop for Living History weekends available through the summer months. Visit the Nevada City Music Hall with a collection of historic music machines, gaviolis and player pianos--the largest music machine collection in the world open to the public.

So when the Butte Federation show is over or you're on the way, be sure to visit some of these historic Southwest Montana locations; take your time and explore and enjoy.

Mailing of Folded Rock Club Bulletins By Beth Heesacker

My bulk mailing guru and my local Post Office assure me that the new rules published last month in this newsletter only apply to those bulletins that are <u>bulk mailed</u>. Since my club mails so few and uses first class postage we can continue as we always have. You might want to use the larger sealing tabs and move them up to within an inch of the top to comply with the new standards just to make it easier to get your bulletins safely through the machinery.

Clubs, please note that any SHOW INFORMATION should go to Pat Lambert, Show Coordinator. She will then send the information out to the rock magazines, websites and to this newsletter.

All MEMBERSHIP UPDATES, including new members so they can receive this newsletter as soon as possible, should go to Tom Burchard, Circulation Chair and to Carol Willey, Directory Chair.

See the second page of this newsletter for address information for these Chairmen and Chairwomen.

Thank you!

Earth Day April 22nd
