Kathy Moedl
President

I missed the deadline in last month’s newsletter. I was still coming down from the mid-year meeting high. The mid-year meeting was good and it was nice to see all of you that attended.

Many of you have already had your club shows by now. Now is the time to have your club members send in their entries for competitive and non-competitive showcases at the NFMS show in Butte, Montana in August. The entry form can be downloaded from the NFMS newsletter. Entry deadline is July 10, 2013.

Helpful hints to first time entrants, Juniors and Adults alike:
Read the AFMS Uniform Rules (update 1/1/2013) located on the AFMS website under Amfed.org/Downloads/AFMS Uniform Rules (update 1/1/2013). It is 100 pages but don’t be intimidated. Read the general rules and then find your category and focus on that section.

If you are still unsure about your entry or have questions any of the Competitive Exhibits Chairpersons can help you get your footing and make sure you get in the right category.

After your showcase is judged, the judges are very helpful and encouraging. This helps you expand your knowledge, gets you ready to compete in the AFMS show (if you qualify) and open new doors you didn’t know existed.

Opening new doors you didn’t know existed is the best part, I think. There is a whole new world out there in the NFMS and AFMS! Be sure to take a look!

I’m looking forward to getting out rockhounding. I purchased a new RV and can’t wait to put it to the test! See you out there!!!!
NFMS EXECUTIVE OFFICERS 2012-2013

PRESIDENT: Kathy Moedl, Idaho Falls Gem and Mineral Society, 149 E. 1st, N. Rexburg, ID 83440, (208) 749-4166, kmoeckl@bellsouth.net

1st VICE PRESIDENT: Don Innes, Far West Lapidary, 54416 Arago-Fishtrap Rd., Myrtle Point, OR 97458, (541) 396-5722, doninnes28@gmail.com

2nd VICE PRESIDENT: Warren Rood, Marcus Whitman Gem and Mineral, 243 E. Birch, Walla Walla, WA 99362, warrenrood@yahoo.com

EXECUTIVE SECRETARY: Joan Day, Golden Spike Gem & Mineral Society, 149 E. 1st. N, Rexburg, ID 83440, (208) 749-4166, khoode@bellsouth.net

ASSISTANT SECRETARY: Carol Willey, Idaho Falls Gem and Mineral Society, 149 E Tingle Rd., Winlock, WA 98596, (360) 785-3909, chuckagate2@yahoo.com

SCHOLARSHIP: Evelyn Cataldo, Lakeside Gem & Mineral Club, 2606 S. Oak, Kennewick, WA 99337, (509) 628-0170, Ecataldo@ctlabs.com

SHOW CHAIRPERSON: Bianca, Butte, Montana

SHOW COORDINATION: Pam Lambert, Lakeside Gem & Mineral Club, 2622 Broadway, Billings, MT 59102, 406.670.0540, dtreuesfossil12@yahoo.com

ROCKHOUND OF THE YEAR: Vada Jones, Skagit Rock & Gem Club, P. O. Box 2841, Mt. Vernon, WA 98273, (360) 424-8340, vj3170, jall@eotnet.net

INTERNATIONAL RELATIONS-AMERICAN AWARD-Dee Holland, Cataldo, MT, P. O. Box 23, Tendoy, ID, 83468, (208) 749-2533, cell 509-910-9228

NORTHWEST NEWSLETTER VOL 53, NO. 7 JUNE 2013

To see this newsletter in living color and to see it by the first of the month go to:

http://www.amfed.org/nfms/newsletters.asp

and click on the month you want to see.
Have you ever wondered why the average age of our club members is around and above 50 years old?

When we were kids we all liked to pick up and throw or keep pretty rocks. We began to collect a few. As we got older (in our teens) we found other pursuits to entertain us, such as horses, cars and the opposite sex.

The younger folks now find TV, Computer games, facebook, twitter and cell phones to entertain them. It is hard to get them out in the country to the wide open spaces because they miss the previous entertainment.

We have to spend a lot more hours working, sometimes two jobs and with both Parents working, leaving little time for the little excursions into the country. Prices of gas, insurance etc. get in the way of these weekends where we used to take our kids to see the world around us. It is much harder to get the youngsters away from the TV and other forms of entertainment.

I wonder if the generations ahead of us will be willing to give up the conveniences to become Rock Hounds. We are losing more and more of the freedom to do these things, and I do hope we can change that.

Think of it, Gemstones (rocks) are formed in the most violent way in the upper mantle (magma). They are found, cut, polished and fashioned into jewelry. The most famous were worn by nobility, kings, queen’s dictators and others. These folks are gone but the gems are still here. Some are 100’s of years old.

The lure of gemstones is “possession”. The pride of ownership. Murders have been committed, wars have been fought and countries have changed leadership because of these “pretty rocks”.

Our interest in collecting rocks varies in many ways. We sell, show, collect, fashion and wear the articles we manufacture, even use them in rock gardens and pathways. Writing about pathways, we have just had a field trip to Joe Cota’s Rock Castle in Lebanon Oregon. As we walked for a couple of hours down “pathways” lined with rocks we must realize the earth is still making gemstones in the hot violent Magma.

This is one thing I have enjoyed since joining my local rock club ten years ago. I have rediscovered discovery. I will never forget my first field trip with my club when I found my first nice petrified wood limb on Saddle Mountain. Everybody gathered around and handled, inspected and admired the 6 inch limb. They encouraged and complimented me on a nice job. I thought to myself, maybe I can’t fish, but I can find nice treasures in the ground.

Whether it was my first field trip, or the large NFMS trips or the one I just finished yesterday on Red top mountain, each trip has been all about good friends, family and discovering treasures. I felt especially fortunate on this trip to Red Top Mountain, as we had an experienced person share hard to find spots that yielded birds egg size blue agate nodules that were embedded in basalt. We also found two seams of blue agate and a very hard to find jasper. Treasures that would never have been discovered if we had not made the effort.

During these nice weather months I hope that each of you can rediscover the joy of discovery.

Take Full Advantage of Resources for Kids

The AFMS offers a free Badge Program via Future Rockhounds of America to help local clubs guide their pebble pups and junior members through 20 areas of our hobby, rewarding them with colorful badges along the way. (See www.amfed.org/fra/fra_badge.htm.)

I continue to encourage each and every local society with a Federation affiliation to take full advantage of this free program. It can be used in a group setting during monthly club meetings or to guide individual kids in an independent study or home-schooling sort of way. But this is far from the only resource available to you!

I encourage you to follow the example of Steve Veatch, who oversees juniors in the Colorado Springs Mineralogical Society and the Lake George Gem & Mineral Club. Steve seeks out and uses every possibility for involving kids. For instance, he encourages them to write articles and poems for publication in their local society newsletters, and many end up in the Rocky Mountain and American Federation bulletin contests.

He’s helped his society’s juniors get published in scientific journals and uses other resources, like the National Park Service’s National Fossil Day art contest, science fairs, the Science Olympiad at the University of Colorado, and more.

Like Steve, let’s all seek out every resource available to help fan the interests of kids in our societies. There are the wonderful Diamond Dan activities and publications (www.diamonddanpublications.net), the Mineral of the Month Club, activities via Earth Science Week (www.earthsiciweek.org), and more.

You’ll also find earth-science related activity books and kits in stores catering to teachers or in mail order businesses like Edmund Sciences or Wards. Check ’em all out—and then, have fun!

Safety Chair

IT’S HOT OUT THERE.....
I had another story planned for this month but work got in the way. For those of you at the mid-year meeting, the neck brace is off. This allowed me to work in the yard. I had some stumps removed and started to fill in the holes. Things were working well as long as I was in the shade. But mid 80’s and direct sunlight was not what the doctor ordered.

I started to think about all the field trips coming this summer. Are we prepared for what the SUN will bring? How about a few reminders:

• Up to date first aid kit.
• Sun screen.
• Any medications that might be needed.
• Plenty of water.
• Have your vehicle serviced. It could be a long walk.
• If you are off-roading, two spare tires might be a good idea. Some cars come with the little donut tire. You might want to replace with a standard spare.
• For us that are losing their hair, a nice hat would be a good idea.

This is just a short list. You should make your own to reflect your needs. Just one last item - a walking stick for those going into the desert to beat the brush for snakes. This idea was from Del & Clara Walker Last, BE SAFE OUT THERE.

Symptoms of Heat Stroke

The hallmark symptom of heat stroke is a core body temperature above 105 degrees Fahrenheit. But fainting may be the first sign.

Other symptoms may include:

• Throbbing headache
• Dizziness and light-headedness
• Lack of sweating despite the heat
• Red, hot, and dry skin
• Muscle weakness or cramps
• Nausea and vomiting
• Rapid heartbeat, which may be either strong or weak
• Rapid, shallow breathing
• Behavioral changes such as confusion, disorientation, or staggering
• Seizures
• Unconsciousness

First Aid for Heat Stroke

If you suspect that someone has a heat stroke, immediately call 911 or transport the person to a hospital. Any delay seeking medical help can be fatal.

While waiting for the paramedics to arrive, initiate first aid. Move the person to an air-conditioned environment -- or at least a cool, shady area -- and remove any unnecessary clothing.

If possible, take the person's core body temperature and initiate first aid to cool it to 101 to 102 degrees Fahrenheit. If no thermometers are available, don't hesitate to initiate first aid.

You may also try these cooling strategies:

• Fan air over the patient while wetting his or her skin with water from a sponge or garden hose.
• Apply ice packs to the patient's armpits, groin, neck, and back. Because these areas are rich with blood vessels close to the skin, cooling them may reduce body temperature.
• Immerse the patient in a shower or tub of cool water, or an ice bath.

If emergency response is delayed, call the hospital emergency room for additional instructions.

After you've recovered from heat stroke, you'll probably be more sensitive to high temperatures during the following week. So it's best to avoid hot weather and heavy exercise until your doctor tells you that it's safe to resume your normal activities.

From the Editor’s Rockpile
By Beth Heesacker

I hope all of you are getting excited about going to Butte, Montana for the Annual NFMS Meeting. The last time we were in Butte, we had a marvelous time. The mining, the minerals, the rock, the history and all were a package deal that was almost impossible to beat.

I haunted the bookshops, the head frames of mines, the museums, the wonderful old homes with their gingerbread moldings and even found an Orthodox church with hundreds of icons spread across its walls. I have very fond memories of that last trip.

I am so pleased that Butte has volunteered to host this year’s meeting again. I hope to retrace my steps and go off on some more wonderful side trips of discovery this year. Butte has become one of my favorite places.

And, last but certainly not least, there is the meeting and show to attend. All the friends from across the Northwest to see again. The Editor’s Breakfast. The Awards’ Banquet. The rocks and minerals on display and for sale. It all adds up to an exciting way to really get fully immersed in the rockhound hobby. See you there!!!
A REMINDER AND REQUEST FROM THE CREDENTIALS COMMITTEE

The NFMS Credentials Committee Chairpersons, Clara & Del Walker, must receive the NAMES (only) of Club Directors and Delegates as soon as possible (ASAP) for planning purposes of the meeting. The annual meeting will be held at 6:00 p.m. on Aug. 9, 2013. Registration is open one hour prior to the meeting at the Mining City Science Center, Butte, MT. The Credential forms below must be completed by the designated director/delegate, signed by the Club President and Secretary, and BROUGHT BY THE DIRECTOR AND DELEGATE to the annual meeting. Or, this should be done by the alternate delegate(s), if necessary. Send the name(s) (not the credentials forms) at least one week prior to the meeting to:
Clara & Del Walker
12377 SE Davis Loop
Prineville, OR 97754
Phone: 541-447-7826 (cell: 503-812-6540) or email to dcwalker@embarqmail.com

WANTED

The NFMS will be hosting both the silent and voice auction at the annual show in Butte, MT. We are asking member clubs to bring ½ bucket of clean identified material to the show. This material could be from your area. Longview WA will be bringing coprolite from Salmon Creek. This material is common to them but prized outside their area. If you would like to bring more, we will not turn it down. Something special will be put into the voice auction.

We also need volunteers to run the silent auction.

Dick Parks will be chairing the auctions. He can be contacted at packrats2@q.com or 360 892-3716
I’d like to share something with all of you. I have mentioned in the past that Northwest and California are basically the only regional federations who are supporting competitive exhibiting.

This past month I was involved in the applications for California and I’m proud to announce they will have 57 competitive exhibits at their show May 31 – June 2.

I know our Federation is spread through many states, but it’s our 75th Anniversary, the show and convention is in a beautiful, historic town, BUTTE, MONTANA and I know you will want to attend. Why not bring along a competitive exhibit to add to the show and offer something important to the public, your exhibit.

If you don’t know what division or class, contact me and we can talk. Just don’t be left out…..

Dee Holland, NFMS Rules Committee
beauholland@centurytel.net

Reminder:

All NEW information concerning the Show or Meetings in Butte, Montana must be submitted by June 15th for the July/August NFMS Newsletter.

Please note:

Competitive Case application is in the March edition.

Non-Competitive Case application is in the May edition.

Registration is in the May edition.

Credentials are in this edition.

Please find what you need and download it from the NFMS Website, http://www.amfed.org/nfms/newsletters.asp . Thank you.
AFMS Code of Ethics

I will respect both private and public property and will do no collecting on privately owned land without the owner’s permission.

I will keep informed on all laws, regulations of rules governing collecting on public lands and will observe them.

I will to the best of my ability, ascertain the boundary lines of property on which I plan to collect.

I will use no firearms or blasting material in collecting areas.

I will cause no willful damage to property of any kind - fences, signs, or buildings.

I will leave all gates as found.

I will build fires in designated or safe places only and will be certain they are completely extinguished before leaving the area.

I will discard no burning material - matches, cigarettes, etc.

I will fill all excavation holes which may be dangerous to livestock.

I will not contaminate wells, creeks or other water supply.

I will cause no willful damage to collecting material and will take home only what I can reasonably use.

I will practice conservation and undertake to utilize fully and well the materials I have collected and will recycle my surplus for the pleasure and benefit of others.

I will support the rockhound project H.E.L.P. (Help Eliminate Litter Please) and will leave all collecting areas devoid of litter, regardless of how found.

I will cooperate with field trip leaders and those in designated authority in all collecting areas.

I will report to my club or Federation officers, Bureau of Land management or other authorities, any deposit of petrified wood or other materials on public lands which should be protected for the enjoyment of future generations for public educational and scientific purposes.

I will appreciate and protect our heritage of natural resources.

I will observe the “Golden Rule”, will use “Good Outdoor Manners” and will at all times conduct myself in a manner which will add to the stature and Public “image” of rockhounds everywhere.

MIND GAMES

Wow! I’ve seen this with the letters out of order, but this is the first time I’ve seen it with numbers. (I will never feel guilty about typos in the newsletter again, it just a test.)

Good example of a Brain Study: If you can read this OUT LOUD you have a strong mind. And better than that: Alzheimer's is a long, long ways down the road before it ever gets anywhere near you.

7H15 M3554G3 53RV35 7O P080V3 H0W 0UR M1ND5 C4N D0 4M4Z1NG 7H1NG5! 1MPR3551V3 7H1NG5! IN TH3 B3G1NN1NG 17 WA5 H4RD BU7 N0W, 0N TH3 15 LIN3 Y0UR M1ND 1S R34DI1NG 17 4U70M44714CU L17Y W17H U7 3V3N TH1NK1NG 4B0U7 17, B3 P30UDY! 0NLY C3R451N P30PL3 C4N R34D 7H15.

To my 'selected' strange-minded friends: If you can read the following paragraph, forward it on to your friends and the person that sent it to you with 'yes' in the subject line. Only great minds can read this. This is weird, but interesting! If you can read this, you have a strange mind, too. Can you read this? Only 55 people out of 100 can. I couldn't believe I could actually understand what I was reading. The phaonmneal pwoer of the human mnid, accodring to a rscheearch at Cmabrigde Uinervtisy, it dseno't mtaetr in what oerdr the ltteres in a word are, the olny iproamtnt tihng is that the frsit and last ltteer be in the rghit pclae. The rest can be a tootl mses and you can still raed it whotuit a pboerlm. This is bcuseae the huamn mnid deos not raed ervey ltteer by istlef, but the word as a wlohe. Azanmig huh? Yaeh and I awlyas tghuhot slpeling was ipmorantt! If you can raed thisto forwrad it

Even if you are not old, you will find this interesting...This is NOT a joke. If you were able to pass these tests, you can cancel your annual visit to your neurologist. Your brain is great, and you're far from having a close relationship with Alzheimer...

Via RMFMS Newsletter, 5/13; SCRIBE Jan-Mar/13

Clubs, please note that any SHOW INFORMATION should go to Pat Lambert, Show Coordinator. She will then send the information out to the rock magazines, websites and to this newsletter.

All MEMBERSHIP UPDATES, including new members so they can receive this newsletter as soon as possible, should go to Tom Burchard, Circulation Chair and to Carol Willey, Directory Chair.

See the second page of this newsletter for address information for these Chairmen and Chairwomen.

Thank you!
