

# NOTICE

Due to the fact that this property is in the middle of a National Monument, we are subject to much closer scrutiny than other properties. We have gone through a lengthy process and here are the parameters that we will work with . Our group is the only one that is allowed to bring RV's on the property so we have a privilege no others can get.

- **NO PETS.** Exceptions will be made for service animals, but they must be registered with me 45 days prior to the event so that I can notify the camp Manager within 30 days. No animal waste may be left on the OMSI or NPS property. Animals may not be allowed to run loose.
- **Smoking is prohibited.** If a group participant chooses to smoke they need to first check in with the Manager to find a designated space, and the smoker is responsible for cleaning up and packing out all cigarette butts.
- **Alcohol.** Alcohol is permitted, but must be consumed in moderation and under control. Guests must dispose of all alcohol containers offsite from Hancock Field Station.
- **Earliest arrival time is 3pm.** Hancock Field Station staff are cleaning and preparing the site from the previous group and are not able to accommodate early arrivals. Because of this, group participants arriving before 3pm will be asked to leave and come back at the appropriate time.
- **Parking.** Parking is allowed in designated areas only. The camp manager is responsible for all parking management and any issues or concerns that arise. Group participants must follow the direction and decisions of the camp manager. There is no parking or waiting allowed on the National Park Service Road that connects Hwy. 218 to the Hancock Field Station. There is also no parking or waiting on the Hancock Driveway which is also a designated fire lane. These roadways are required by State and Federal guidelines to remain open to allow emergency vehicles access to Hancock Field Station. Once at Hancock guests are not allowed to drive over drainage ditches in order to park a vehicle on the other side.
- **Housing and RV's.** OMSI will provide privacy curtains for use in the larger A-frame cabins upon request. There is a maximum of 10 partial hookups for RV's. Six will be used by instructors leaving only 4 RV hookups for use by participants, and those must be under 26 feet in length.

•  
**NOTE – No AIR CONDITIONERS allowed to run.**

**This means that if you plan on bringing an RV, the first four RV's under 26 feet will be allowed. All others will be assigned cabins for the program.**

(Plan to bring your own **good quality** slabs, or purchase from instructors)

We will be teaching beginning cabochon making and also advanced cab making to those qualified cabbers who wish to learn how to make free-form cabs or just learn to be a better cabochon cutter. We can help you if you plan on participating in competition.

We have multiple workstations utilizing both diamond and carborundum, High Speed Sanders, 18” slab saws, small trim saws, a large flat polisher, and leather with Optical Cerium Oxide polishers.

Instructors are Master Cutters.

All tools and supplies are provided by the Instructor; and a minimal fee will be charged for each project. They will charge you for all Silver and stones that you take from the Instructor’s supply. The tools are for your use based on the per project Fee. This is a basic class with a lot more information available for those that learn fast .

## FACETING WORKSHOP

## WIREWRAPPING WORKSHOP

Again we are addressing the needs of the beginning wrapper but will also be teaching advance techniques such as double units and bracelets. Instructor will have Wire available for you to buy for your projects as well as stones. It would be nice if you brought your own stones to wrap and your own tools. The Instructor, Darlene Wozniak, will try to contact you prior to the Retreat, but if you need more info, e-mail her at [jwozniak@spiritone.com](mailto:jwozniak@spiritone.com).

## BEADING WORKSHOP

The beading class will be held along with the Wire wrapping so that you can learn various beading techniques and learn how to work them in to blend with Wire wrapping. This is a unique opportunity to develop some new techniques to create a new and different style of jewelry. There will be a variety of techniques explored such as Various methods of beading around cabs – some cabs are available to purchase or bring your own. Bead Stringing and application of crimp beads, knotting beads with small holes, Basic seed bead stitches such as Peyote, Brick Stitch, Right angle Weave, Herring Bone and others. Some beads will be available to purchase or bring your own.

## INTARSIA WORKSHOP

The Instructor will have a kit for your first project that you must purchase. If you have brought your own material, you may use it after finishing the first project. If you do not have your own material, the Instructor will have a limited amount available at a reasonable price. There will be enough equipment to handle at least 8 people. This class will last for a maximum of 2 ½ days so that a second class can be done within the week. Advanced would be available if so desired.

## CASTING

A maximum of 6 students: Student must bring their own Safety Glasses (Required), Opti-Visor or dollar store reading glasses if needed for close work, and bring their own silver for casting. For Silver type and amount contact the Instructor. There will be a minimal material charge for each project based upon materials used.

Instructor: Chris Blickfeldt [grumpies@q.com](mailto:grumpies@q.com)

## JEWELRY CARVING

The basic Jewelry-sized Carving Class will include an introductory to carving tools, cutting and finishing, along with the use of finished pieces. Each student will work on a carved piece and use the supplied tools and equipment. Expect to finish a piece wearable as jewelry. The cost of the class will be \$50.00 payable to the instructor at the beginning of the class. This additional fee is required due to the high cost of the diamond utilized in the carving process and the additional equipment needed for this function. The instructor will have a

supply list with current prices of the items used in the class. Additional materials are available if the student wishes to work on other pieces within the class time.

If this class goes well, next year it could be extended to 3 or 4 days.

**NOTICE** - This class will be limited to the first 6 people.

If you plan on attending this class make it your number 1 choice so we can get the first 6. The class will be on Friday and Saturday. If you do this then choose another #1 for your Start to the week on Tuesday.
